Election/Restrictions

Applicant's election without traverse of claims 1-7 and 15-19 in the reply filed on 8/14/2006 is acknowledged.

Claims 8-14 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 8/14/2006.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 and 15-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Vild et al. Vild et al, in the claims for example, teaches a molten metal submergence device including a vortex breaker in the form of a ramp, a submergence chamber with an inlet on a side wall thereof and an outlet showing all aspects of the above claims.

Response to Arguments

Applicant's arguments filed on 4/12/2007 have been fully considered but they are not persuasive. Applicant's argument that the pipe of Vild is not configured to depend from the wall of a submergence chamber inside the confines of a side wall is not persuasive because as shown

Art Unit: 1742

in the embodiment of figures 4 and 5 for example, Vild et al shows an inlet pipe introduced through the side wall as claimed. Applicant's further argument that Vild et al does not teach operating the apparatus as recited in claim 15 is not persuasive because this is an apparatus claim, and it has been well settled that the manner or method of operation of an apparatus cannot be relied upon to distinguish claims to the apparatus itself. see MPEP 2114 and 2115.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
